

Vancouver Island Health Authority

Excellent care – for everyone, everywhere, every time

REQUEST # 2012-629

Date: October 5, 2012

PROVIDED TO

Name: Mary Catherine Collins
Position: Manager, Seniors Health
Email: Mary.Catherine.Collins@viha.ca

REPAIRED BY

Name: Chloe Wu and Ben Ridout
Operations Research & Advanced Analytics
Email: xiaofeng.wu@viha.ca or ben.ridout@viha.ca

TITLE

ECT Stats

DATA SOURCE

DAD (Access via IDEAS)

SUMMARY

This report provides a summary of the number of patients who received ECT treatment at VIHA sites from 2002/03 to 2012/13 (partial year). An ECT intervention is identified by CCI code 1.AN.09.JA.DV. As requested, the numbers are split by age group and gender. Since ECT's are done as both inpatient and outpatient procedures, the results are also split by inpatients and outpatients. The numbers in each table represent the number of patients treated during the year, rather than the number of treatment sessions.

NOTE:

- Any cell sizes less than 5 have been occluded and replaced with "<5"

ECT Patients – Royal Jubilee Hospital
